

Network switch-technical specification

Maximum Port density	24 10/100 PoE ports
Uplinks	2 dual-purpose (10/100/1000 or SFP) ports
Architecture	Layer 2 Switching (basic connectivity), Layer 2 Switching (intelligent services), Voice Enabled
DRAM	64 MB
WAN Interface Support	n/a
Backplane Capacity	16 Gbps
Number of VLANs	255
forwarding bandwidth	16 Gbps
switching bandwidth	32 Gbps
switch flash memory	32 MB
maximum transmission unit (MTU)	Up to 9000
